

DECISIA

The first word that pops into our mind when we think about 'Engineering' is Logic. We all would agree upon the fact that Logical reasoning and decision making comes very natural to us. So are you game to put these instincts and abilities of yours to test? If yes, **DECISIA** is what you are looking for!

Rules & Regulations

- A team can comprise of 2-4 people. Team members must belong to the same college.
- Each team must bring at least one laptop with charger.

Rounds

There will be THREE rounds:

❖ PRELIMS :

It is a 45 minutes written test. There will be TWO prelims (both offline), which will take place on two separate days of the event (23rd & 24th February, Friday & Saturday respectively). The teams who appear for the 1st prelims will NOT be allowed to attend the 2nd prelims. So, choose a day which is most suitable for you. The selected teams from both the prelims will proceed to the next round.

❖ NO-ELIMINATION :

The teams will be provided with a problem statement depicting a dynamic situation and the teams have to come up with a solution with solid reasons and facts. There may be counter questions from the judges on what you pitch. Please note that this is a NO ELIMINATION round.

❖ FINAL HURDLE :

- I. In this round, the judges will test your decision-making skills on spot. Each team shall be given 10 minutes, where the judges will give real-life scenarios, which are often encountered in industrial practice, and you'll have to take the decisions instantaneously. Solve more scenarios and better your chances of winning.
- II. The scores of 2nd & 3rd rounds entirely depend on the judges. The cumulative scores of both the rounds decide the winner!
